New Congo Vehicle Fund

Quality, dependable vehicles are critical to the overall success of ECM’s ministry. In Congo, having a reliable vehicle allows staff to ensure that ministry is being carried out in all parts of the city of Kinshasa, a city with over ten million people. The current vehicle is quite old and is becoming difficult to maintain. A new vehicle will allow the DRC staff to continue to minister and provide training in their communities.

Our goal is to raise $16,500 to purchase the type of sturdy and reliable vehicle needed in Congo.

The ministry of Pastor Mupepe (above) and other DRC staff members in Kinshasa will benefit greatly from a new vehicle!
