Medical Outreach Fund

The ECM Medical Fund is used to provide medical help for suffering children, especially through surgeries and other treatments, and medical clinics for children with albinism and the general population.

Whether it is a major surgery, a child with albinism with skin infections, or children coming to an ECM sponsored medical clinic for childhood illness, Every Child Ministries wants to help!

Our goal is to raise $19,800 in 2019-20 to cover major surgeries and medical clinics for children with albinism and other members of communities where we serve.
