Students like Georgina want to be all that God has called them to be! Provide for their future by meeting their educational needs today!

Next Step Scholarship Fund

We have several high performing high school students who lack the necessary funding to continue on to university education or other high level training. Your gift will provide scholarships for school fees, books, tuition, and other educational needs, making it possible for students like Bernice (above) to complete their education!

The cost of tuition for our students is usually between $1500 and $2000 per year, depending on the type of program they enroll in. Several children in our programs won't have the opportunity to go to university because of the cost, unless someone steps in help them.

Our goal is to raise $11,000 in 2019-20 to provide scholarships for qualifying ECM students to attend university or high-level vocational training.
